SKILLS

- Node.js
- React
- Angular
- JavaScript & TypeScript
- LangChain & LangGraph
- RAG & Context Search
- SQL
- MongoDB & Postgres
- AWS
- Docker
- Jenkins
- GitHub Copilot
- OpenSearch
- HBS
- Agentic AI / Multi-Agents
- Kubernetes
- Amazon-Q & Github-Copilot
- Azure

PROFILE

Results-driven Software Engineer with 6+ years of experience building scalable backend systems and modern web applications. Proven expertise in Node.js, Angular, PostgreSQL, and AI-driven architectures, with a strong focus on intelligent data systems, microservices, and cloud-native solutions. Skilled at translating complex business requirements into high-performance, production-ready systems.

WORK EXPERIENCE

Accenture, Hyderabad Oct 2024 - Present
Senior Analyst

NL-to-SQL Intelligent Data Agent (PostgreSQL)

- Built an **NLP-based system** converting natural language queries into SQL statements.
- Designed a **multi-agent architecture** using LangChain and LangGraph for orchestration.
- Improved query accuracy through **RAG-based context analysis** and schema-aware parsing.
- Enabled business users to query enterprise data using plain English.

Reach - Citizen Engagement Platform

- Developed a **microservices**-based portal using Node.js and serverless architecture, with **PostgreSQL** for database management.
- Built backend services for document management, payments, and user account systems.
- Implemented a **web crawler** integrated with Amazon OpenSearch for large-scale data ingestion.
- Integrated Angular UI for a seamless user experience.
- Achievement:** Improved user engagement by 30% through performance and UX enhancements.

Collabera Digital, Hyderabad Mar 2024 - Sep 2024
Senior Software Developer

MPay - Digital Payments Platform

- Developed **MPay**, a secure and scalable digital payments application for clients in the Philippines.
- Built **serverless Lambda functions** for transaction processing, enhancing efficiency.
- Optimized database schemas** for robust data management and reliability.
- Mitigated vulnerabilities identified in **VAPT assessments**, bolstering security.
- Implemented **AWS Cognito services**, protecting user data from third-party attacks.
- Achievement:** Increased transaction processing speed by 40% and reduced security incidents by 25%, enhancing user satisfaction and trust.

Infosys, Hyderabad Jan 2021 - Mar 2024
Senior Systems Engineer

Shipment Admin - Warehouse Management System

- Developed **Shipment Admin**, a warehouse management system for tracking inventory, product details, and shipment origins.
- Built **frontend UI** using React for adding shipment details, enhancing user experience.
- Developed **custom Material-UI components** and standardized code with Storybook.
- Integrated APIs into React, ensuring seamless data flow across systems.
- Achievement:** Reduced inventory tracking errors by 30%, improving stock management.

EDUCATION

Bachelor of Technology Jun 2015 - May 2018
Gurunanak Institute of Technology, Hyderabad

Polytechnic Jul 2012 - May 2015
Govt Polytechnic, Kothagudem

CERTIFICATIONS

- Node.js Professional
- Software Development
- React Basics
